

Good bacteria for a healthy microbiome Ideal for infants aged 0 – 24 months

Did you know?

An infant's microbiome can be disrupted by for many reasons including mum's diet, medication, hereditary factors, birth mode and feeding choices. Antibiotics, which are commonly used during pregnancy, birth and breastfeeding can also upset the balance of good bacteria in infants.

Evidence based Qiara Infant is suitable for all infants, including those with colic, reflux, unsettled after feeding or experiencing diarrhoea, constipation, cough or cold.

Qiara Infant, contains a probiotic strain isolated from breastmilk* to support gastrointestinal health and positively help their microbiome. Breastmilk provides natural probiotics and essential nutrients to help infants develop a balanced immune and digestive system.

*Qiara Infant is listed on the Australian Register of Therapeutic Goods and is not a substitute for breastmilk.

Why Qiara probiotics are different

Qiara probiotics are isolated from breastmilk giving unique benefits for all infants.

Stories

Hear what other mums say about how Qiara helped them and their families.

"I did a post about this and a lot of suggestions came through." Willbys colic mix and Qiara was highly recommended. She has been on (this) for 2 weeks and she has improved so much. She is much more relaxed, able to burp and pass wind ...and the probiotics helped to build good bacteria and a stronger stomach"

@thebaby advisory ★★★★★

"My 4 month old baby boy has been having this probiotic for the last 3 weeks and I have noticed a huge improvement with his tummy troubles he's had since birth. Great product and easy to give to baby!!"

She's been using Qiara since her daughter Isabella was six weeks old after it was recommended to help with colic & help prevent mastitis. "She's almost six months old ... and she was cured from colic symptoms almost immediately". Sydney Morning Herald

Liza Rozen Grav *****

"Qiara is the only probiotic to contain the same bacteria found in our breastmilk with proven research. It will help speed up the process of maturing his digestive system so he can break down the milk better himself. With colic mix and Qiara Infant, within one hour he was passing gas and the sound asleep for 5 hours. 100% recommend Qiara" @babycenter.com.au
